Hi

If you want a Forhåndskonferanse, like you ordered online it will be in norwegian and costs 5561,- kroner. Its also possible to to just write a report (in norwegian) which costs 3539,- with standard information about your property. But we do need more information on what kind of information you want/need.

I would also recommed that you use an responsible applicant.

Med venleg helsing

Hello Hanne,

We are Theo & Eline from the Netherlands.

We tried to make an appointment through the Alver website. The information is only in Norwegian, so this was probably incomplete/incorrect.

We bought the plot in Frekhaug, at Fosse 236.

We would like to build an Alhytta there. We would like to know if that's possible and we would also like to know what options there are for building off-grid. Is it possible to have contact about this in English?

We are also in Alver area march 1st to march 3rd 2023. We can then come by in person to discuss the options further.

We hope to hear from you.

Thanks in advance. Kind regards,

Theo & Eline
