Hei ,

I would like to apply for a lamp next to the house Sandvikavegen 51 ! On this street there is very dark . We have 2 children going to school . They don't feel save and complain about darkness . Please as a Lindås kommune Can check this and let us know if you can fix that to feel more safe On This street. There is only 1 lamp opposite our house on neighbor area , but doesn't help any one who wants to go this street . Hope You can fix that as soon as possible before something happend .

Looking forward to hear the message from you

Thank you
