Prince Olav Cradle – Progress Report 21.12.20

Major milestones in project progress –

Shetland company Malakoff Ltd. have provided a very competitive quote to build the replica cradle. There is merit in using Malakoff to build the cradle, as they have a direct historical link to William Moore & Sons, and they now own and operate the Scalloway repair yard.

The Shetland Bus Friendship Society (Scalloway Museum) has allocated £25,000 project funding, demonstrating its commitment to the project. We are confident that further funding will follow to meet the project budget.

Project Status

- | | |
|---|----------|
| • Research the construction of the 1942 Shetland Bus Cradle. | Complete |
| • Ensure a replica cradle will be 95% plus accurate. | Complete |
| • Produce cradle construction drawings. | Complete |
| • Obtain a quote from Malakoff to construct the cradle. | Complete |
| • Source funds required to construct the cradle. | In work |
| • Obtain Planning Permission from the Shetland Islands Council (SIC) to remove existing cradle and replace with 1942 replica. | |
| • Agree Partnership Agreement with Malakoff to site cradle on slipway. | |
| • Construct cradle and place on the slipway. | |
