**Emne:** Replying to your questions about your neighbor's animals

Hello, Francois Deneulin

I`m replying to your e-mail received on the 9th of march this year.

The concerns you are raising regarding your neighbours animals is of a private character, and therefore not a matter that Osterøy kommune has authority to decide or to give advice on. I would refer you to the Norwegian law named [Grannelova](#). As a first step its common to talk to the neighbour and se if one can find common ground in situations like this.

You can make an inquiry to [Mattilsynet](#) (Norwegian Food Safety Authority) with regard to the registration of the sheep.

With regards

**Tore Johan Erstad**
