[SPORTS FLOORING](#) [VINYL SPORTS FLOORING](#) [GRABOSPORT ELITE](#)

GRABOSPORT ELITE

general design and the combined foam backing, graboSport Elite protects athletes' joints and cartilages during sport, training, game or competition.

The patented **TECH Surface top layer** ensures durability and easy maintenance of the floor covering.

Along with excellent functionality, it is famous for **optimal slip resistance** that helps to prevent accidents caused by either a too low, or a too high coefficient of friction.

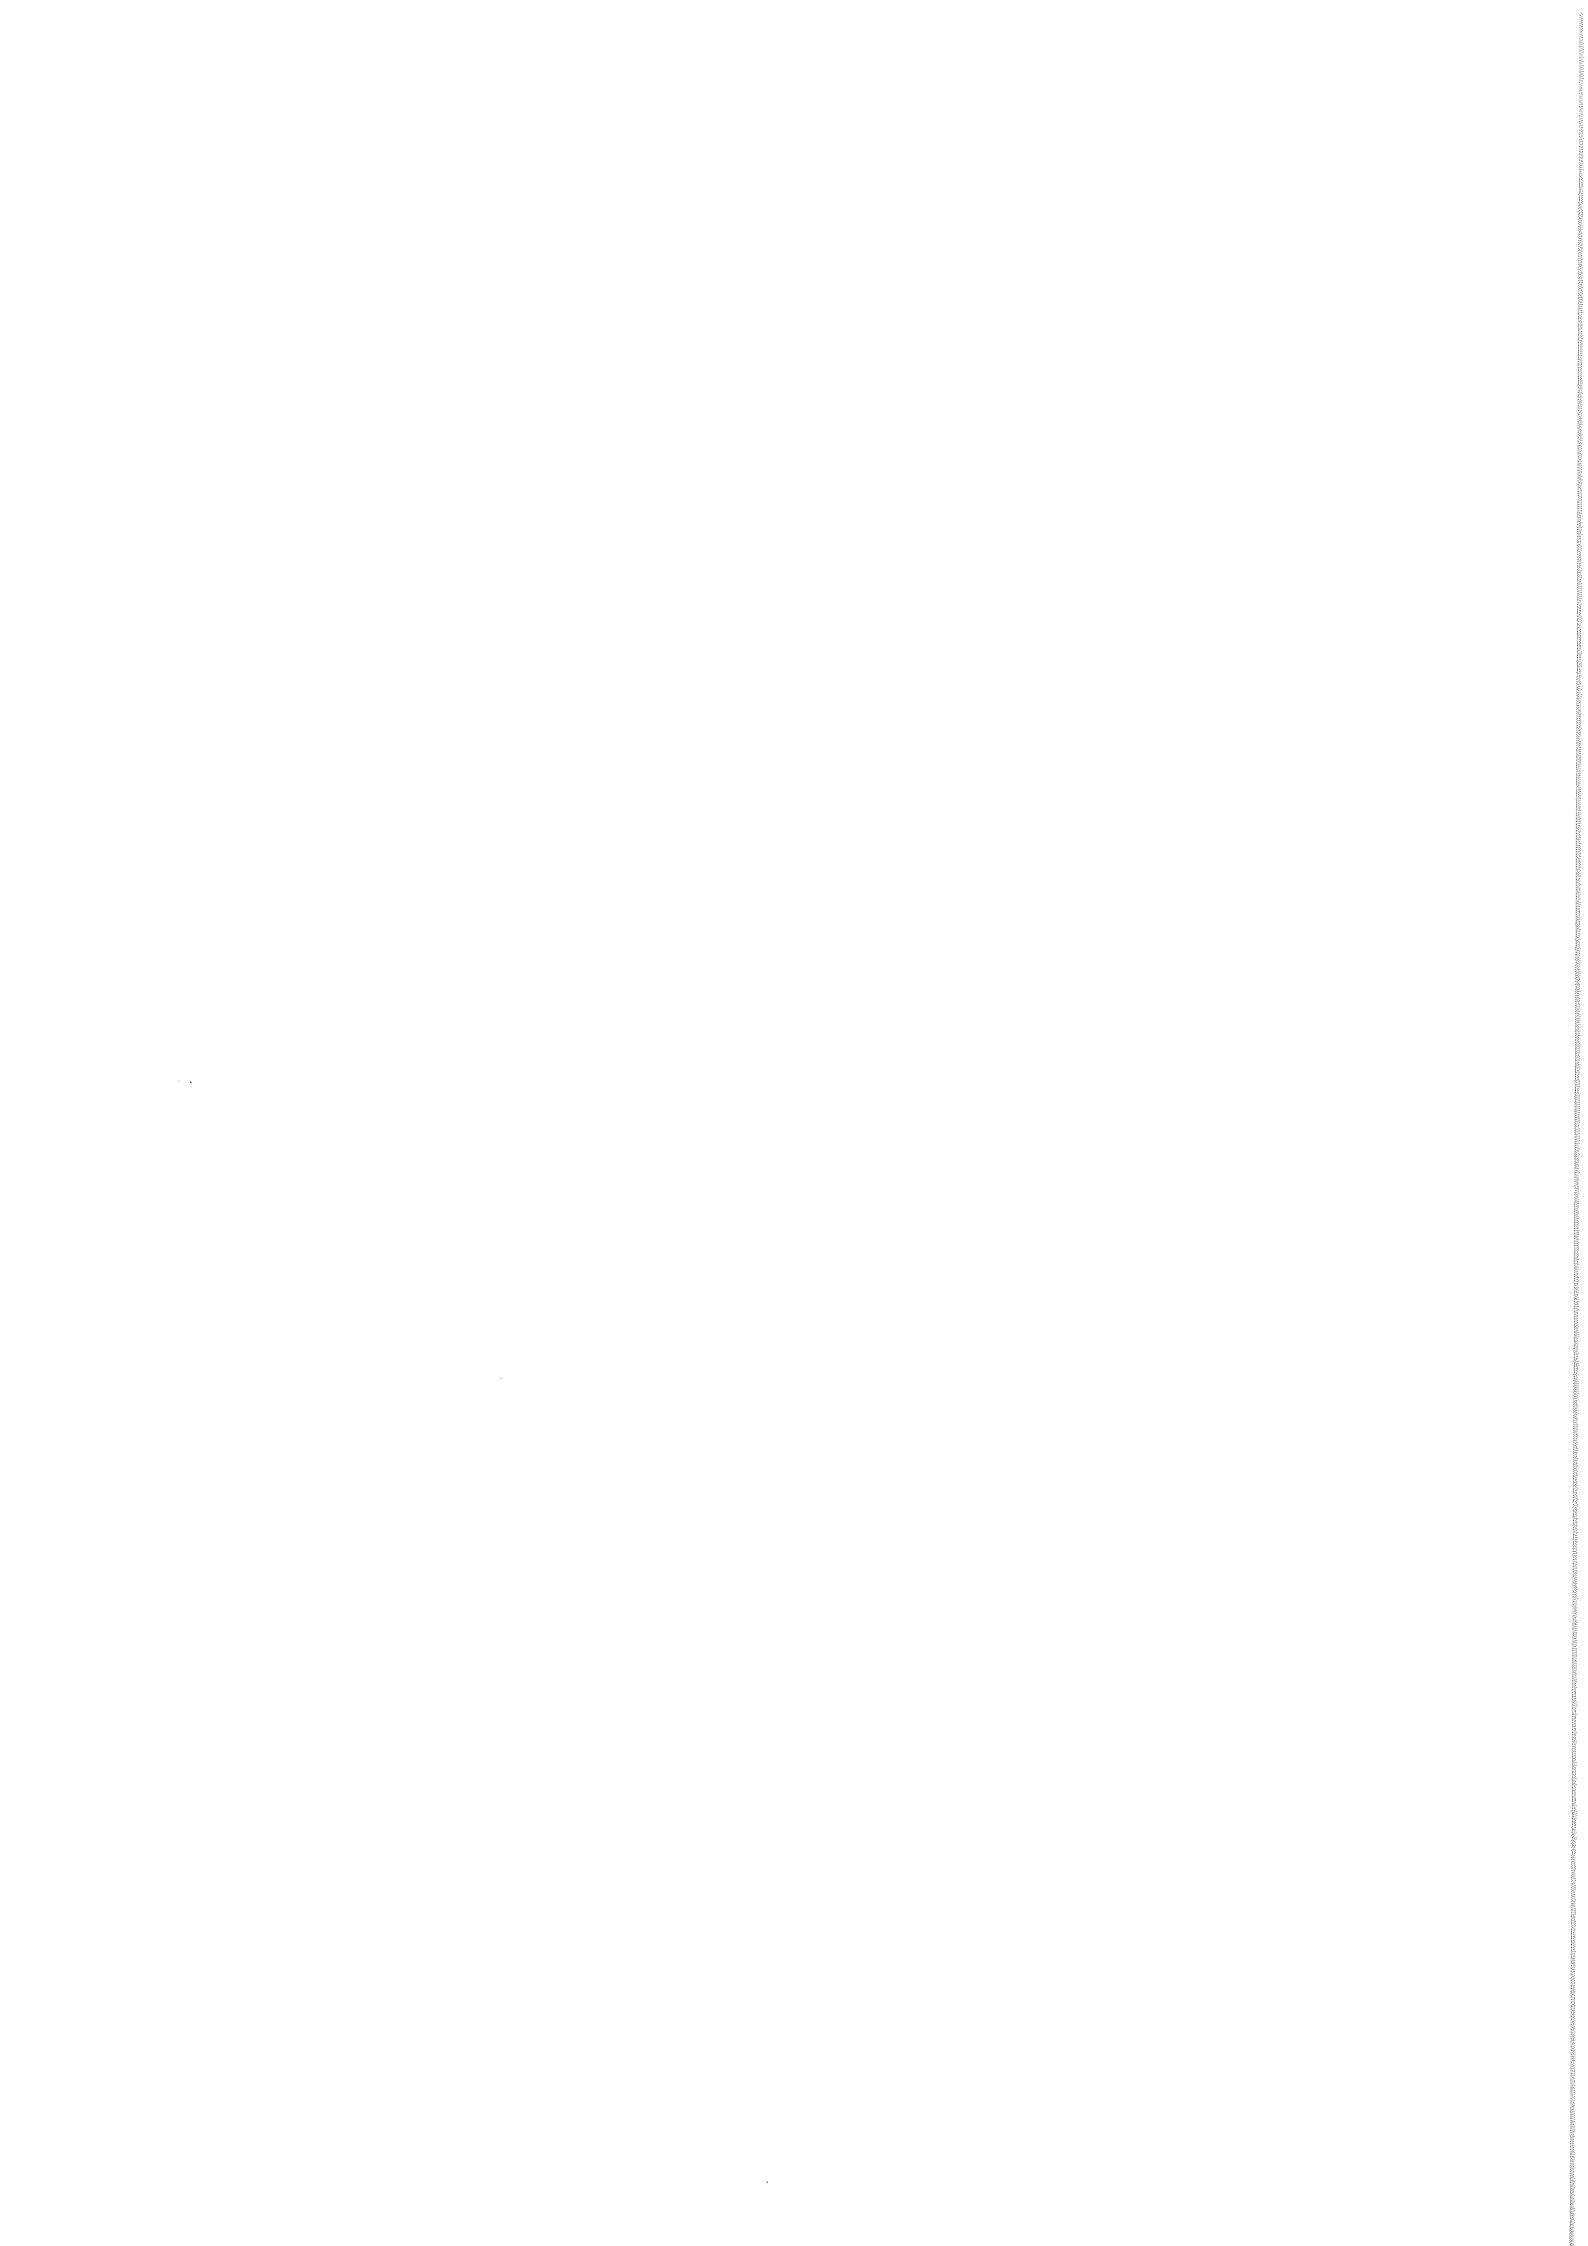

GraboSport Elite is a point elastic sports flooring fully compliant with the requirements of **EN 14904**.
