Honorable Mayor,

I am sending an e-mail with the intention of making you a small request.

First of all, i am a young boy and my favorite sport is cycling.

In my cycling curriculum, it is noteworthy to refer that i have covered most of the municipalities of Portugal and some in Spain.

As i would like that Norway and your local was part of my cycling script, i am asking you to send me the \*pins\* alluding to your municipality (eg: \*of the coat of arms\*, ...) and, if possible, other materials related to the attached files, which will also be welcomed and will help to enhance the promotion of the municipality.

Thank you, now, for your understanding.

Graciously

Yours faithfully,

Ricardo Santos

PS: If your municipality sends the pins in a non-padded envelope, you have to wrap the pins and preferably put adhesive tape around of entire the outer of the envelope for it not tear during the postal automatization of the mail services.

PS: No need to send tourist information (tourist guides, maps, brochures, catalogs, flyers, pamphlets), because I can see information about your municipality on the internet.
